Captain:

I just wanted to drop this e-mail to let you know what an inspiration you were to me during the time you spent in training... Not knowing all of the challenges, to see how you are making the adjustment from one position to the next with such a positive outlook is refreshing... More often than not I see just the opposite... Tackling the RSTARS, PASS Buyer (You did take PASS Buyer??? I can not recall) and to my surprise a Spanish class to ensure that your transition is successful is inspiring. Because your temperament in the classroom was consistently upbeat, I want you to know that I personally consider you to be a great role model for me professionally... I thank you for allowing me and the rest of the class to connect with your spirit of excellence... Captain, if I can assist you in anyway, just ask and you can count on me... Once again thanks and be encouraged because you are an encouragement to me, Skip.

PS... If it's O.K..... I will be checking up on you periodically regarding your financial inquiry skills in RSTARS
☺.....
